WASSER BERLIN INTERNATIONAL is a specialized, international marketing platform in Germany for water management.

WASSER BERLIN INTERNATIONAL is the only trade fair that presents the entire water cycle and offers products and services from all segments of the water industry. The water cycle is reflected in the layout of the exhibition halls: from water extraction, treatment and distribution, to industrial water use and energy efficiency.

Trade fair segments

- Water extraction
- Water treatment
- Water distribution
- Wastewater transport
- Sewage and wastewater treatment
- Water infrastructure/**NO DIG**
- FLOOD MANAGEMENT BERLIN/Flood control
- IT services
- Quality assurance/Science/Research
- Industrial water use
- Measurement, control and analysis technology/Energy efficiency
- Energy production

Congress

Organized by the association WASSER BERLIN e.V., the Congress is integrated into the trade show as a stand-alone hall forum. Brief two-hour sessions focus on current themes from management, industry and science.

Blue Planet is the WASSER BERLIN INTERNATIONAL political platform. The event is sponsored by the German Federal Ministry for the Environment, Nature Conservation, Building and Nuclear Safety, by the Berlin Senate Association for Business, Technology and Research, and by Messe Berlin GmbH. Blue Planet is organized by the German Water Partnership e. V. (GWP).

The Congress is included in the price of the trade show ticket.

Symposia – Detailed information about the exhibition segments

Several symposia sponsored by professional associations and organizations provide further information about different exhibition segments. The Water Infrastructure segment includes Pipeline Construction and

p.t.o.

NO DIG and is supplemented by a two-day lecture program. The renowned Well Boring Symposium is part of the Water Extraction segment and serves as an accredited education course. A one-day symposium organized and managed by the association WASSER BERLIN e. V. is held in conjunction with FLOOD MANAGEMENT BERLIN.

International Forum

International markets and the opportunities they offer are presented at the International Forum. The forum is organized by the German Association for Water, Wastewater and Waste (DWA) and the German Water Partnership (GWP).

WASSERLEBEN – Interactive public exhibition

Experiment, discover, research. This is where the next generation can learn about the significance of water as a resource in an amusing way. WASSERLEBEN is aimed at students, teachers, and anyone who is interested in obtaining an overview of the diversity of water.

Schaustelle WASSER BERLIN INTERNATIONAL Excursion

The Schaustelle WASSER BERLIN INTERNATIONAL showcases innovative construction techniques in Berlin and gives insights into modern processes in potable fresh water and wastewater treatment. The tour is organized under the auspices of the Berliner Wasserbetriebe.

Trade visitors

Water management decision makers from the public sector and industry, engineers, specialists from the building trades, civil engineering, well drilling, waterworks construction and other fields, representatives from national and international organizations, procurement specialists, representatives from industry associations, institutions, science, research and government agencies.

The trade fair is supported by

- DVGW – German Gas and Water Trade Association
- FIGAWA – German Gas and Water Industry Association
- IWA – International Water Association
